Any gymnast at a Regional Championship meet who does not place in the top eight (8) places for the individual events (beam, bars, floor, vault), or who does not place in the top four (4) places for all-around but who does score the state qualifying score shown above, automatically qualifies for the VHSL State Gymnastics Individual/Open Championships.

Qualifying scores are determined by averaging the 5th place scores from the last five state championship meets. The 5-year average is rounded down to the nearest tenth. Districts, Conferences and Regions may adopt less stringent standards for their District and/or Conference and/or Region meets.
